

JAPAN CORPORATE COMPLIANCE AND GOVERNANCE FORUM

18 OCTOBER 2017 - Keio Plaza Hotel Tokyo

OVERVIEW

Fraud and corruption remain as the top business risks affecting organisation of all types and sizes. According to PWC's 2016 economic crime survey, a total of 24% global companies report having been victimised by bribery or corruption, which are costing organisations billions per annum, not forgetting the reputational damage it caused.

Asian Legal Business (ALB) is proud to present our annual **Japan Corporate Compliance and Governance Forum**, which will focus on managing the increased perception and pressure to combat fraud and corruption within and outside your organisation. This event will bring together key experts and thought leaders within the region to discuss the latest anti-corruption enforcement trends and challenges, new strategies in preventing, detecting and responding to fraud and corruption.

BENEFITS OF ATTENDING

- Shaping the right corporate culture by establishing the right code of ethics and code of conducts of a successful organisation
- Designing and implementing an effective corruption risk management
- Understanding the scope of key international legislation and ensuring your organisation is in compliance with it
- Building a robust corporate fraud and corruption control framework that complements organisational reputation and business objectives
- Managing corporate fraud and corruption risks by assessing the possible loopholes and closing the gaps effectively
